SPOILER WALKTHRU for Ch01

Some hints to avoid using the walkthrough

- > Go to the Options page and tap the Instructions link
- > Tap to check what all of the icons do.
- > Tap things to add to your inventory
- > The bag gives access to your inventory
where things appear that you can tap to use. Check it often.
- > Use the i HINT icon for extra help (only available on easy "snake" level)
- > Look in the journal at any time for info.
- > Use the Map icon to jump back and forth to places that may have something you missed. Not all areas you visited are on the map because they do not have something you need or are not needed for a short cut.
- > Tap the birds along the way, as some of them give helpful information.

Ch01 Tambo Ollantaytambo

- > Tap the Llama first.
- > Tap Quipu on wall to realize that there is info & a clue in the journal.
Collect gold (drag and drop on Llama at right), go right to collect more gold.
- > Tap to collect the stone, it will end up in your inventory bag. Go back to the first scene.
- > Tap bag icon on left to open Inventory bar. Tap stone, then tap pot to break it and drag/collect gold to the Llama
- > Go to center behind pot (or tap the travel prints to see where to go)

-
- > Tap to Collect 3 strings and drag 2 gold

NOTE: LLAMA will spit and dump gold onto the ground if you don't send it when it gets heavy. If it gets dumped, drag gold back to llama, tap SEND then load more gold.

- > Tap face on wall for clue that goes into game journal.
- > Tap Quipu to arrange strings (same as clue in journal) on Quipu to win Quipu in Inventory.
Work puzzle by tapping string in inventory then onto the puzzle, or skip (you will need to have the Quipu prize to use later and can get it by skipping but will lose an award for this Tambo).
Go left

-
- > Tap both sticks and tap them in the inventory bar to join them,
use the joined sticks to tap large stone to collect gold
Tap wall Jaguar to explode to collect gold (you will learn to beware the bandit)
Tap knob on wall to open door

-
- > Collect gold as you wish for the rest of the game to win trophy at the end of each Tambo but not necessary to finish the game.
 - > Tap ladder, tap wall to place it at wall, tap the face, go back
 - > Go to the right to collect water from the fountain with the urn (tap urn then tap the water) and return,
 - > Tap face with water urn, work slider puzzle or skip (you will need to get the shell to use later)
(puzzle face clue is in your game journal if you tapped on the wall face)

-
- > Go thru portal door to last scene,
 - > Tap stone to break pot for gold. (if you choose to collect the stone and not use it to collect the gold, the stone may remain in your inventory through the game)
 - > If you collected all of the gold and did not skip the puzzle, there should be a pop up here that says congratulations, you won a trophy, and the trophy should show up in the awards page that you can access through the main menu, through "extras". Otherwise a pop up will

say that no trophy was earned and that you can go to Options if you wish to change difficulty level.

At this point you have learned the mechanics of the game. You can run through the entire game without collecting any gold or solving any of the puzzles, but you will have to complete tasks to move forward. If you get frustrated and wish for a Complete Spoiler Walkthru, send an email to LundgraphLLC@gmail.com and we will send it to you.
